Below is Monsanto's proposed agenda to discuss the breast milk sampling. Would you like me to move forward in scheduling a meeting with the BEAD lab team?

Hey Carissa:

Here's what we propose-

- Discuss the details of Monsanto's assay for the detection of glyphosate in milk
- Gain EPA's feedback
- Update on our data collection
- Update on EPA's progress

Thanks,

Good morning, Dan,

Per our discussion yesterday, could you please provide an agenda, topics of discussion and/or any other meeting material? This information will ensure I have invited all the appropriate people who have been working with glyphosate and the breast milk sampling.

Thank you,

Carissa
